About this Report

The Chicago Department of Transportation (CDOT) conducts a timely analysis of fatal traffic crash reports furnished by the Chicago Police Department (CPD) to understand the circumstances associated with such crashes. Based on these analyses, CDOT has identified trends, patterns, and correlations associated with each fatal traffic crash. These factors are then grouped into fatal crash typologies as listed to the right. Classifying crashes based on these typologies is among the preliminary outcomes of the analysis process and supports CDOT's efforts to develop relevant and data-informed actions to increase traffic safety. This report provides summary information related to fatal traffic crashes reviewed and analyzed by CDOT that occurred in the month specified.

Updated: February 17, 2026

Typologies

- SP Speeding
- DT Disregard Traffic Signal/Sign
- DS Distracted
- HR Hit & Run
- SU Single-Unit Crash
- LV Striking Driver in Large Vehicle
